

CRITICAL INFORMATION SUMMARY – EFFECTIVE FROM 01/10/2021

Prepaid Plans for National and International calls and SMS, and mobile data

Information about the service

- Lycamobile's prepaid mobile service allows you to make and receive calls, send and receive SMS and access mobile data.
- We only do prepaid Plans, so you have no minimum commitment period, and you do not have to take any other services from us.
- The default Plan is Pay As You Go where you top-up and only pay for what you use, or you can use your Lycamobile account balance to pay for a Monthly Plan where you get an allowance of minutes, texts and data to use in a month.
- Pay As You Go rates apply for usage which is not included in a Monthly Plan (such as roaming) or if you exceed your Monthly Plan allowance – this applies to mobile calls, SMS and data
- Automatic Plan Renewal:** For convenience, this Plan automatically renews every 28 days from the day of purchase (which is counted as the first day). You are free to notify us not to renew your Plan when it expires. Unless you notify us not to renew your Plan before it expires, we will automatically renew it when it expires (and we will automatically bill you the 28-day fee or deduct the 28-day fee from your available phone credit or chosen payment method) – any remaining allowances will not be carried over into the next 28-day validity period. Please see the table below (Other information) on how to disable automatic bundle renewal.
- If you don't have enough Lycamobile account balance for your next Monthly Plan payment you will default to Pay As You Go.
- You can move back to Pay As You Go from a Monthly Plan while it is valid online via Quick recharge, My Lycamobile or by calling Customer Services but you will only be eligible for a refund if you have not used any Plan allowance, and you will lose any remaining Plan allowances.
- You can use the services without any requirement for additional telecommunication Goods.
