

This summary does not reflect any special discounts, bonus data or promotions which may apply to the **Large Long Term Plan** from time to time. This information applies to purchases by new customers and recharges by existing customers.

Description of the service

The Large Long Term Plan is a prepaid mobile plan that enables customers who have compatible mobile handsets to use the service for 12 x 30-day renewals. It is offered by Lyca Mobile Australia for personal use only, with inclusions and exclusions described in this Critical information summary.

What is included

When you are in Australia, the following services are included in your Large Long Term Plan .	
Cost of recharge	\$360 (for 12 renewals – equivalent to \$30 per renewal)
Expiry	The Large Long Term Plan expires after 12 x 30-day renewals from the activation date or the last recharge date, whichever comes first.
Total included data	600GB: 50GB every 30 days x 12 renewals
Network	5G & 4G. Speed caps apply
Data banking	Rollover up to 500GB of unused data
Standard national call and SMS	Unlimited
Calls to voicemail (121) and customer service (122 & 1300 854 607)	Unlimited
Standard international calls to mobile & landline numbers	Unlimited minutes to 39 countries. To check the list of included countries, click here .

What's not included

All non-personal, commercial, machine-to-machine calls, calls or texts to satellite and premium numbers (e.g., 19xx numbers), operator-assisted calls (12xx numbers), video calls, international roaming, and national and international MMS are excluded. Some additional services are not included in this plan but are still available at Lyca Mobile's best rates, including:

1. **International calls** (outside plan inclusions) and standard international SMS. For rate details, click [here](#).
2. **Roaming services**. For rate details, click [here](#).
3. **Calls to 13XXXX and 18XXXX numbers**. For rate details, click [here](#).
4. **Standard national MMS** (excluding video MMS) to Australia numbers cost 62c/MMS (2MB).

Please ensure you purchase a PAYG top-up or have a valid PAYG credit balance to use the services listed above.

Other important information

Activation

To use the service, visit our website to activate your SIM. A valid ID is required for the activation process. Activate your new SIM within 30 days of purchase (or by the promotional deadline) to access the benefits of advertised plans.

Recharge your service

You can choose one of the following options to recharge your plan:

1. **Online:** Use the [app](#) | Log in to your [account](#) | Visit our [website](#)
2. **Offline:** Visit your nearest [store](#)

Auto recharge

For uninterrupted service, auto-renewal is enabled by default, and your plan will automatically renew on its expiration date. You can use the [app](#) or log in to your [account](#) on our website at any time to update your payment settings (including payment method and disabling/enabling auto-renewal). If auto-recharge is turned on, we will process the payment using your authorised payment method (credit/debit card) to renew your plan on the day it expires.

Standard national calls and SMS

- Standard national calls are to any 10-digit number within Australia starting with 02, 03, 04, 07, and 08.
- Standard national SMSs are to any 10-digit mobile number within Australia. This does not include 13/1300 and 1800 numbers.

International calls inclusion

Unused international minutes expire at the end of your 28-day period and will not be rolled over into either the next 28-day period or your next recharge, whichever comes first.

Data banking

- **Data rollover:** Up to 500GB of unused data will roll over into your Data Bank when you recharge on the same or a higher-value plan - this can be either the same or a higher long-term plan or greater than the split 28-day value of your current long-term plan. Bonus data and data-only plans cannot be banked.

- **Grace period:** You have a 48-hour grace period after your plan expires to recharge or purchase a new plan. Unused data (including Data Bank) is lost if not recharged. Data Bank remains available but cannot be used during this time.
- **Change plan/missed payments:** You will lose all the data stored in your data bank if:
 1. Switch from one long-term plan to another long-term plan with a lower value or switch from a long-term plan to a 28-day plan with a value lower than the split 30-day value of your previous long-term plan

Example: You'll lose the data in your data bank if you were on the \$360 Large Long Term Plan (which gives you an equivalent of \$30 per 30 days) but switch to the \$150 Medium Long Term Plan or any 28-day plans that are lower than \$30 per 30 days.
 2. **You do not recharge** or purchase a new plan (same or higher value) within the 48-hour grace period after expiry.

Data

Data is counted in kilobytes and includes uploads and downloads. If you exceed the data allowance on your current plan before its renewal date, you will begin using any data stored in your Data Bank to stay online until your next recharge. If you exhaust both your data allowance and the data in your Data Bank, you will not be able to use data until your next recharge unless you purchase an optional data add-on.

Data add-on

If you've exceeded your data allowance, you can choose from data add-on options starting at \$5 for 2GB. You can easily select your preferred add-on option through the [app](#) or visit our [website](#). Unused data from data add-ons will not roll over into the data bank.

Usage

You can use the [app](#) or log in to your [account](#) on our website to check your usage. You will also receive SMS usage alerts on your compatible device within 24 hours of reaching 50%, 85%, and 100% of your included data. These SMSs will not contain an unsubscribe facility.

Tethering

Tethering is permitted for personal devices only but must not be used in a modem or as a substitute for a home internet service.

Network, speed, and coverage

- You will have access to our 5G network using your 5G-compatible devices. Outside of the 5G coverage areas, your device will automatically connect to the 4G network. Download speeds are capped at 100Mbps. The speed cap on your plan is the maximum potential download speed for data included in your recharge/plan.
- The quality and availability of some services and the speeds you reach will continually vary depending on many factors, such as your location, your device capabilities, network congestion, network coverage or if you are roaming. Find out more about our coverage [here](#).

Early terminal charge

There is no minimum contract term (no lock-in contract). This means you won't be charged an early termination fee if you cancel your plan or port out. However, if you terminate your service before the plan's expiration, the plan price and any remaining credits will not be refunded, and any unused data or inclusions will be forfeited.

Disconnected numbers

Your Lyca Mobile number will be disconnected if you do not recharge your plan or purchase a top-up for ninety (90) consecutive days from either the activation or expiry dates of your last recharge, whichever is the latest. We will send you SMS notifications at 60 days and 80 days to remind you before disconnection. If no action is taken within this period, your agreement will be automatically terminated, and this termination will be considered initiated by you.

Quarantine period

Once your Lyca Mobile number is disconnected, it will be in quarantine for 180 days. During this period, you will not be able to hold Rights of Use for your number, however, it cannot be assigned to anyone else. If the number is within the 180-day quarantine period, in some circumstances, we may be able to reconnect a disconnected number. Please call customer support on 1300 854 607 for assistance.

We are here to help

If you have any questions or need help, you can contact us online [here](#) or call 122 from your Lyca Mobile number or 1300 854 607 from another network.

Complaints or disputes

If you have a dispute or wish to make a complaint, you can lodge a complaint online [here](#) or by emailing us at complaints@lycamobile.com.au, and our team will immediately work to resolve it.

Further complaint options

If you're dissatisfied with the outcome after speaking to us, you can contact the Telecommunications Industry Ombudsman on 1800 062 058 or via <http://www.tio.com.au/>. You must contact Lyca Mobile Australia to lodge your complaint directly before contacting the TIO.
