

Lyca Smart M: kr.199

This bundle offers a data roaming allowance of 10 GB for EU countries, with a cap of 5 GB for UK and Swiss roaming. For further information on roaming within EU countries and Lyca Mobile's Fair Usage Policy click here (<https://www.lyca-mobile.no/en/roaming-within-eu-eea/>)

International Calls & SMS:

The package includes 250 minutes of voice calls from Norway to the listed countries. Calls to countries not listed will be charged according to the rates mentioned here (<https://www.lyca-mobile.no/en/rates/#/international>). Once your international allowance is used up, calls will be charged at the rates specified in the link. International SMS will be charged based on the rates provided here (<https://www.lyca-mobile.no/en/rates/#/international>).

Data Allowance:

If your data usage exceeds the bundle allowance, it will be charged at the standard rate mentioned here (<https://www.lyca-mobile.no/en/rates/>)

Data Rollover:

Data Rollover is included in your plan subscription, which allows you to carry over unused data to the next month. The amount of data that can be rolled over is limited to the maximum data allowance included in your subscription. When you have unused data at the end of a billing cycle, it will be rolled over to the following month. For instance, if you have a 5 GB subscription and only use 2 GB in a first month, 3 GB will be rolled over to the next month. Consequently, you will have a total of 8 GB available for usage in the next month.

For Instance:

5 GB + 5 GB Rollover			
Months	Data Allowance	Used	Remaining
Month 1	5 GB	2 GB	3 GB
Month 2	8 GB	2 GB	6 GB
Month 3	10 GB	2 GB	8 GB
Month 4	10 GB	2 GB	8 GB

The rollover feature applies only to data and does not extend to other aspects of your plan, such as voice minutes, text messages, or other services. The rollover data can be used within the same billing cycle in which it was rolled over. It cannot be carried over for multiple months beyond the immediately following month.

Data rollover is only available for customers who renew the same bundle within 7 days after the expiration date; however, renewals made beyond this 7-day period from the expiration date will not be eligible for data rollover.

If you upgrade or downgrade your plan, the rollover data will not apply. In the event of account termination or switching to a different service provider, any accumulated rollover data will be forfeited and cannot be transferred or redeemed for monetary value.

The availability of the Data Rollover feature is subject to the terms and conditions of your specific plan subscription. The service provider reserves the right to modify or discontinue this feature, or make changes to its terms, with prior notice to the subscribers. By subscribing to the plan and using the Data Rollover feature, you agree to abide by these terms and conditions and any updates or modifications made by the service provider.

Note:

Please note that this bundle does not cover calls and texts to special numbers, calls made on aircraft, boats, or via satellite networks. No services are available on boats or airplanes, and MMS service is not supported.
